

GRASSROOTS & CITIZENSHIP COMMISSION

201 LABELLED PROJECTS

	PROJECT				DATE/PERIOD		LOCATION
	Title	Project initiator and partnership	Name of the Representative	Content	2011	2012	
PL1	Sustaining the Blue Planet : Global Water Education Conference	WET Foundation + UN Habitat, UNESCO-IHP	Jet Etgen	300 to 500 educators, NGO representatives, government officials, international dignitaries are expected to attend this conference which aims to increase knowledge and response capacity in terms of eco-citizenship with children and young people in the field of water (schools, communities...).	September 13&16 2011		Bozeman, Montana, USA
PL2	Raise the Awareness in IPCC on the Importance of Climate Impacts and Vulnerabilities on Water	Academy of Water	Jean-Louis Oliver	This seminar would be a great opportunity to bring together water and climate experts, scientists and mid-term and long-term forecasting for groundwater and superficial water regimes.	September & November 2011		IWRA or UNESCO Paris
PL3	Educational performance "Baladine, the Water Drop"	Association "La Nature Racontée"	Henri-Marc Becquart	An original film and interactive performance on the theme of water, mixing science, story telling and pictures. It presents to the pupils a comprehensive synthesis of the whole issue of water, so as to introduce the compelling necessity of eco-awareness.	School year 2011/2012		Marseille

PL4	POLLUTEC HORIZONS 2011 - Global Event for Eco-Technologies	Pollutec	Christiana RABUSIN	Pollutec Horizons 2011 is a global event for eco-technologies, renewables and equipment and services for the treatment of pollution.	November 29 / December 02, 2011		Paris
PL5	POLLUTEC MOROCCO - International Exhibition			Pollutec trade show aims to gather on one place the whole range of Moroccan and international professionals of the environment sector in order to let them exchange, inform, train and invest in the environmental technologies.	October 26 to 29, 2011		Morocco
PL6	POLLUTEC SIEITA - International Exhibition of Water and Irrigation			SIEITA is being staged in response to a royal initiative and in partnership with the Moroccan Ministry of Agriculture and Fisheries. This is the first International Exhibition of Water and Irrigation for the Tadla-Azilal region	October 19 to 22, 2011		Morocco
PL7	The Hakawati Karagiozis Meets to discuss children's Mediterranean WATER	Mediterranean Center of Environment	Isabelle BOUCHY	Puppet theater, raising awareness and educating school children about water in the Mediterranean. A teaching method on the theme of water distributed to all major cities around the Mediterranean.	September 15, 2011 to March 2012		Athens, Beyrouth, Marseille
PL8	International Workshop : "Urban Rainwater Management : what solutions?"	Seine-Normandy River Basin Agency + International & local Partnership : Regional Council of Ile de France + Ministry of Ecology + SIAAP	Guy FRADIN - Anne BELBEOC'H	By bringing together stakeholders in urban planning, water professionals, sanitation and waste management, decision-makers as technicians from North and South, the ambition of the international workshop on the Urban Rainwater Management is to highlight development solutions across urban areas that have proven themselves in various parts of the world.	September 21 to 23, 2011		Pavillon de l'Eau in Paris

PL9	Six Local Fora on International Solidarity	Seine-Normandy River Basin Agency	Guy FRADIN - Anne BELBEOC'H	The organisation of fora in its seven regional countries on the topic of decentralized cooperation aims to bring out concrete solutions to the forum in Marseille and engage or federate local authorities on helping developing countries.	Fall 2011		Regions of the Seine bassins and rivers of Normandy
PL10	AquaView Project: a Virtual Platform on Water and Culture	INSLA- (japanese foundation for Integration of Natural Science and Liberal Arts) + NGOs, ISW, French Water Academy, FERKLA, SEPIA Conseils, Kei Iwasaki Environmental Planning, ONEP Marocco, MEDDLT France, United Nations Educational, Scientific and Cultural Organization (UNESCO).	Yves KOVACS - SEPIA CONSEILS	Database with scientific data, cultural information and visual & oral short stories on current ways of life.	February 2011 to March 2012		Japan/France/Morocco

PL11	The Thau lagoon: an exemplary integrated management in the Mediterranean	Rhone Mediterranean Corse Water Agency - District Council of Hérault	Michel DEBLAIZE	<p>The Thau Lagoon is an exceptional site which links the land to the Mediterranean Sea in the south of France. It possesses a strong environmental heritage, economic potential, and an unequalled social wealth.</p> <p>The Thau Lagoon is now seen as a pilot site for sustainable and global management.</p> <p>Although it boasts a rich diversity, the territory is fragile, as economic activities depend on the quality of the environment. The policies pursued over the last few decades partially responded to the lagoon's problems and enabled the identification of the prospects for progress.</p> <p>Interrelationships and issues related to the management of water and activities require the carrying out of a multidisciplinary approach to partnerships across the region. This unique approach is currently set up through a Contract for the integrated management of the Thau territory, aiming at conservation and sustainable development.</p>		March 12 to 17, 2012	Sète
PL12	GEOLIDE : the innovative complex of waste water treatment in Marseille	MPM, SERAM (Sewage of Marseille)	Jean-Yves GUIVARCH	<p>The pedagogic visit of Geolide will entitle you to discover Marseille waste water way, will inform you about the plant running and the water treatment before its return into the sea at Cortiou in the Mediterranean Sea.</p> <p>Answering the triple purpose: no visual, no olfactory and no resounding nuisance, Geolide, settled in the center of Marseille, protects the quality of life of Marseille dwellers.</p> <p>A unique and fascinating travel inside the waste water cycle of Marseille!</p>		March 13, 2012	Marseille

PL13	International Water and Sanitation Technologies Exhibition- 3rd edition	SITEau organisation - Maghreb Machrek Alliance for Water-UNESCO Interdisciplinary Chair for Sustainable Water Management-Field.com	Houria TAZI SADEQ	Exhibition, meeting place, discussion and exchanges opportunities for national and foreign operators around the theme "Sustainable Enterprises, Water, Energy and Sanitation."		February 02 to 05, 2012	Casablanca
PL14	Desertification containment and "Drylands & Oasis Space"	Center for International Actions and Achievements (CARI) + MAEE, MEDDLT, AFD, private sponsors	Patrice BURGER	Animation of a Drylands & Oasis space open to the public. Special focus on Mediterranean and Sahelian areas. Design and construction of a space under a Saharan tent; exhibits and film screenings; organizing debates and reports. PL56	Photographic Exhibition: "Earth Foam"	Photographe free lance RVB	Hervé Bernard	<p>Foam, the delicious froth bubbling to the surface of a preserving pan, a promise of the delights to come.</p> <p>Foam, the bubbling air and water of mountain streams, the tides, ephemeral and constantly renewed.</p> <p>Foam, the deadly froth on the surface of rivers, persistent and barely concealing the dead fish and polluted depths below.</p> <p>Water is in our landscapes. The landscapes passed down to us by great painters, Turner, Courbet, Odilon Redon, among others. Those we gaze at intently or distractedly. Those that Hervé Bernard re-composes to show us how we interact with the place where we live. The intention is not to make us feel powerless or frustrated but rather, by alternating warning photos with positive photos, to suggest a roadmap for us at the dawn of the 21st century: take care of our home, our Earth.</p> <p>Hervé Bernard uses documentary photographs taken right on our doorstep, or a little further afield, as well as images based on satellite photographs of the Earth. He builds a series of close-ups of our familiar environment and long-distance shots of our beautiful, fragile planet. He works like a landscape designer, arranging objects in nature, "as seen through his own filters, his own moods, his own objectives". 1.</p> <p>His favourite subjects are: the sky, the earth</p>		During the Forum	Marseille
------	--	-------------------------------	---------------	---	--	------------------	-----------

PL57	Photographic Exhibition: "Marseille, Longchamp and Water"	Michel Eisenlohr (photograph) + City of Marseille	Michel Eisenlohr	With his exhibition devoted to the Palais Longchamp, Michel Eisenlohr aims to promote one of the city's most symbolic buildings, with its magnificent architecture and sculpture work designed to commemorate the arrival of water from the Durance River into Marseille. At a time of repeated droughts and cholera epidemics, the city decided to improve its water supply and sanitation. It took fifteen years to build the 80km-long Canal de Marseille, bringing water from the Durance River to the Plateau Longchamp in 1849. Thanks to this, the city entered a new era of prosperity and economic development. This exhibition of art photography recounts the history of this incredible human achievement, lest we forget. The objective is thus artistic, educational and communicative, an appropriation of water, our shared and vital heritage, through a combination of photography, architecture and sculpture	2011		Marseille
PL58	REMEE « To find again the Mediterranean water historic heritage »	APARE + 6 associations + 1 local authority. Project supported by European Euromed Heritage Program	Jean-Bapiste Lanaspèze	Euro-Mediterranean conference on water heritage in the Mediterranean, and exhibit and guided tour.	June 1st, 2011		Marseille
PL59	A City, a Well	"Puits du Désert" French NGO + KSB sas	Christel Pernet	Project to entice all major French cities to finance the construction of a well in Northern Niger, and to raise awareness among elected officials about access to water for everyone.	2011-2012		Niger
PL60	Involvement of young professionals during the Water Week Forum	Network "Projection"	Célia de Lavergne - Jean Hugues Hermant-Lagrange	Reconstitution of a shantytown to offer solutions to Southern countries; youth hostel to foster exchanges between young professionals from around the world; and writing of a newsletter during the Forum		Marche 12 to 17, 2012	Marseille
PL61	Animation of water fountains in Marseille	ArtKom	Cedric Angelone	Activities around the fountains of Marseille.			Marseille

PL69	The Citizens & Water House + meeting of Elected Representants	SIE	Maggie White, Raymond Jost	The idea behind The Citizens & Water House since their creation in La Haye in 2000, is to create a multifunctional space to welcome open and participative debates and to find real solutions between all stakeholders. We are trying to confront ideas. The House will also be open to the public		March 12 to 17, 2012	Marseille
PL70	20th Edition of Mediterranean Sacred Songs "Comme l'Eau qui coule"	ECUME Association for Cultural Exchanges in Mediterranean Region	Margaret DECHENAUX	Concerts in 3 phases: In PACA in October 2011, in the Mediterranean in November 2011, in Marseille during the Forum in March 2012, with artists from all around the Mediterranean.	October 2011 to March 2012		Marseille
PL71	"The Odyssey Water"&"The Notilus" - International Fair of Marseille & World Water Forum	Artyka Association	Aline EXPOSITO	The mythical vessel imagined by Jules Verne is back. With a length of 13 meters and a height of 4 meters, its windows and its huge dorsal fin, this submarine is an event in itself. The Notilus of the 21st century is an ambassador for Water, and it attracts many people of all ages. In a stunning fantasy setting, visitors take part in an activity that reveals all the secrets of a treasure to preserve: Water.	From September 23 to October 4, 2011	During the Forum	Foire de Marseille in Parc Chanot and exhibit during the Forum
PL72	Exhibition "Water 2012"	Agence de l'Eau Adour-Garonne	Marc ABADIE	Exhibit showcasing the societal dimension of Water with, as an underlying theme, the Water/Human relationship. It will illustrate – thanks to an innovative, thought-out and entertaining stage design highlighted by the legacy collections of the Museum and interactive tools – the essential role of water on life and the living by showing its different aspects: biological, ecological, societal,		2012	Toulouse

PL73	"H2O - Memories of the Rhône"	Ballet de l'Europe - Jean Charles GIL	Muriel FILLEUL	<p>Jean-Charles Gil, the choreographer and Director of the Ballet d'Europe, is planning a new work: "H2O – Mémoires de l'Eau." The ballet has been chosen by the 6th World Water Forum for an exclusive world preview during the evening of the official opening ceremony, on Monday, 12 March 2012 at 8pm at the Palais des Congrès in Marseille.</p> <p>The dance show will be presented in early 2013 to the general public, the year that Marseille-Provence will be European Capital of Culture, before touring in the region, in France and worldwide (2013-2014).</p> <p>With 18 dancer (12 dancers from the Ballet de l'Europe and et 6 break dancers from Tangiers), the show is produced in partnership with the French Institute in Tangiers, with support from the Musée Départemental Arles Antique. The choreography is based around the scientific formula for water, H2O, and research carried out in the Rhone River by the Museum of Arles, first revealed at the exhibition "César, Le Rhône pour Mémoire".</p>		During the Forum (march 12, 2012)	Marseille
PL74	"Literary Salon on Mediteranean Writings" - 3rd Edition	ECRIMED + City of Marseille, MTM, RTM and various public and private partners	Elsa CHARBIT	The Salon wishes to create links between literatures of Mediteranean countries, organizing a space for significant meetings and exchanges in Marseille.	December 3 and 4, 2011		Marseille
PL75	Blue Gold: Natural Resource to Protect	Maison de l'Artisanat et des Métiers de l'Art	Jocelyne ZABALA-GRANDORGE	Art pieces specifically created by artists and craftspersons for a thematic exhibit dedicated to water and open to everyone.		March 15 to May 12, 2012	Marseille

PL76	Economics Week of the Mediteranean	Région Provence-Alpes-Côte d'Azur, City of Marseille, Communauté Urbaine MPM, Etablissement Public d'Aménagement Euroméditerranée, CCI MP, Ministère français des Affaires Etrangères et	Luciana UCHOA	The objective of the Economics Week of the Mediteranean is to highlight ongoing actions on the territory that contribute to the development of Mediteranean economies. The Economics Week of the Mediteranean offers a full and documented contribution to the issue of economic development in the Mediteranean.	October 10 to 15, 2011		Marseille
PL77	International conference on « performance of water supply and sanitation utilities : management and local governance » + Design, publication and distribution of a book on the improvement of the public services performance	ASTEE + ONEMA + AFD + Urban authorities of Bordeaux + Adour Garonne Water Basin Agency + St Gobain PAM + IWA +OECD + VEOLIA + SUEZ + SAUR + Ministries	Solene le Fur	International conference on "tools of governance of local water and sanitation" and a book on bilingual technical theme of improving the performance of public water and sanitation.	October 5-6, 2011		Bordeaux
PL78	Water and Economics Festival	IDEP & GREQAM [CNRS, Ecole des Hautes Etudes en Sciences Sociales (EHES), University of Aix-Marseille II] + SCP + EDF	Yves DOAZAN & Naïma BOUCCEKINE	The festival consists of four lectures and a round table hold during the Festival of Science. It aims to educate the public and professionals on the economic dimensions of water issues and on how economists can apprehend it.	October 12-16, 2011		Vieille Charité, Marseille
PL79	County's Day of Water	The County Council of the Gers + The Ministry of Education, The CPIE (permanent center of environment) of the Gers, Adour Garonne Water Agency	Alexandre Theulle	This day will be devoted to "Great Debates" on the topics of "The Place of Water in History" and "The Role of Water in the Environment" as well as activities and exchanges with local players via a "village of associations". Activities will consist of exhibits, screenings, discovery of the aquatic flora and fauna of rivers, experimenting with water-saving techniques, water tastings, and more.		03.14, 2012, from 10 am to 16 pm	Flaran 's Abbey (Gers)

PL80	EAULALA - Sound and visual works on snow and on ice	PARADOCS Association + - PEJA (European funds), Agences de l'eau Adour-Garonne, Rhône-Méditerranée et Corse, The Hautes-Pyrénées District Council, regional authorities, Fondation de France and Fondation Eau, Neige et Glace (Water, snow and ice Foundation), Petzl Fondation, Ecocert, Parc National des Pyrénées	Laure MULLER FEUGA - Aurélie NURIER	The topic of the film shorts is water "in all its states": solid, liquid, gas, and its challenges, using three fun, poetic, and comical stories shown about one of water's states: snow or ice.	September 2011 to March 2012	Ski resort
PL81	Photography exhibit: "Water, the Treasure of the Himalayas"	Jean PHILIPPE, Photographer, Serge VERLIAT, Geographer and anthropologist + ARPEC Association	Jean PHILIPPE - Serge VERLIAT	Dual-themed photographic and anthropological exhibit combining aesthetics and a human approach. The exhibit shows us this journey along Himalayan waterways while giving us an understanding and fuller appreciation of it.	During the Forum	Marseille
PL82	Technical Days "Alpine lakes. Protecting and sharing water resource"	Regional Council of Provence-Alpes Côte d'Azur + Regional Council of Rhône-Alpes, Silmas project partening régions and lakes, European Union (Alpine space program), EDF mediterranean production unit	Loïc Dautrey	The seminar will strive to cross-pollinate local, regional and European approaches to the water problem in mountains and in the Alps and the specific role held by lakes as "gauges" and/or "wardens" of water resources (in quality as well as quantity), water facing today's challenges and pressures, especially global warming. This technical day will shed light on different themes, problems, possible solutions, available tools such as: managing conflicting water users (professional activities, tourism activities, environment qualities...); solidarity in sharing water resources; urbanizing water fronts.	March 15-16, 2012	Marseille and Durance Valley

PL83	Mediterranean Scientific Conference "Water and sanitation: challenges and health risks in the Mediterranean"	GID - Académie des sciences - (France), Académie Hassan II des sciences et techniques (Morocco) , Académie nationale de médecine, Académie des technologies de France,with the support of the Office national de l'eau potable (ONEP) and the Institut national d'hygiène (INH) of Morocco and the participation of the Academie de l'eau and the Arab Water Academy (AWA)	Jacques Frochen	Conference that will address interdisciplinary health risks related to water (water quality) and sanitation in the Mediterranean region, taking into account two major changes: on one hand, the urbanization and massive coastal development; on the other hand, the strong growth of tourism expected in the region.	11.22-25, 2011		Rabat
PL84	Technical day "Water currents, an artistic journey to the heart of EDF's Saint Chamas hydroelectric power plant"	EDF Mediterranean production	Marie-Isabelle Fernandez	Water currents: Water runs down from the mountains, eager to tell you its story. A journey to the heart of EDF's Saint Chamas hydroelectric power plant. EDF invites you to Saint Chamas for a unique visit to its hydroelectric power plant. Exploring an artistic, poetic and transient world, you will see the story of water sharing in the Provence-Alpes-Côte d'Azur region unfold before your eyes. Make your way around the plant and find out all about the responsible and coordinated management of a resource that is of vital importance to Provence		from 9th to 15th March 2012	Saint-Chamas
PL85	Water multi-use management for a region, an example : the Durance Valley	EDF + Région PACA, CPA, CG04, CG13, mairie de Pertuis, mairie de Venelles, BNP-PARIBAS, CapEnergies, CEA, PNRI	Marie-Isabelle Fernandez	This conference deals with transfer opportunities of experience on water management, techniques for saving, transport and and desalinate.	October 6-7, 2011		Pays d'Aix

PL86	Solutions implemented and health issues concerning water and sanitation in developing countries - Core Group 1.3	Academy of Water + AFEID, the ASTEE and the SHF; the MEDDTL, the MAEE, the BRGM, the ESHP, UNESCO, the WHO, etc.	Jean-Louis OLIVER	The aim of this project is to map health problems in developing countries, according to the regions defined by the WHO, and to inventory the solutions used to resolve them. The project will include creation of an interactive planisphere, a “physical” planisphere, solution cards, and a report summarizing planisphere data and proposed solutions.	September 2011 to April 2012		
PL87	History and Geography Conference: “Water and Industry in Provence”	University of Provence, Société du Canal de Provence - EDF Fondation - 13th general Council - MIP Provence Association	Philippe Mioche	Conference results will be published in issue 20 of the journal, “Industries en Provence, dynamiques d'hier et d'aujourd'hui" (Industries in Provence, a driving force both yesterday and today).		February 22,2012	Le Tholonet
PL88	Trips to Waterland	Jacques Prévert College	Ms Derouiche	Trilateral exchanges, correspondence with Scottish secondary school pupils from Unst (Shetland Islands) and Kumasi, one of the main cities in Ghana, to identify the policies implemented for sustainable water development in each country.	School year 2011-2012		Jacques Prévert College, Social Center Frais Vallon
PL89	“The blue ribbon travelling the world” - Box of 3 books	Céline Hervé-Bazin + SUEZ Environnement	Céline Hervé Bazin	Project that aims to explain the often complex challenges of water through simple stories organized in a boxed set of three books (educational book, stories about water, and draft pages with phrases, figures, and information sources on water printed as background for a book to be used as a notebook).	2011 - 2012		
PL90	Young Citizens Forum: “When teamwork makes water flow in Le Verdon”	Regional Natural Parc of Verdon + EDF, Rhône Méditerranée Corse Water Basin Agency	Marie-Isabelle Fernandez	Trip to the hydroelectric dam located in the municipalities of Esparron-de-Verdon and Saint-Martin-de-Brômes (04), followed by a forum of young citizens in a nearby municipality (to be determined). This trip will illustrate the themes of management and citizenship while highlighting the teamwork and leadership practised at the Verdon watershed in order to balance multiple river uses with preservation of aquatic environments.		January and February 2012	Esparron-de-Verdon et Saint-Martin-de-Brômes

PL91	Scientific & Technical days: "Irrigation in search of new sources of economy "	IRSTEA + European Irrigation Association (EIA), Communauté du Pays d'Aix, MEDIWAT (Interreg-MED)	Pascal DI MAIOLO	Meeting of a group of professionals, scientists, and students that will demonstrate devices and posters on irrigation research under way at IRSTEA (National Institute for Environmental and Agricultural Science and Research), and conferences/debates on advances in the most innovative techniques and research.		March 15, 2012	Palais des Congrès, Aix-en-Provence
PL92	Water Forum for Journalists	IMPRESA magazine + Federation of Industries in the State of São Paulo (FIESP), National Water Agency of Brazil (ANA), Department of Water and Sanitation (DAE), University of São Paulo (USP)	Daniela CANDIDA MAIO	This forum will help encourage journalists to include the issue of water in their reports and to prepare them to provide media coverage of the 6th WWF (in relation to the Brazilian situation).		February 13-14, 2012	São Paulo (Brazil)
PL93	Session : "The question of water ressource"	CEMAGREF + Ministries of Research, Ecology and Agriculture, "La Recherche" Magazine, Urban Community of Grand Lyon, ONEMA, CASDEN	Morgan CROZET	The workshop will address the issue from the quantitative (as the resource diminishes, as a result of climate change for example?) and qualitative (the water quality is improving she?) perspectives and incorporate an approach geopolitics and international. The event will bring together Cemagref staff, elected officials, policy makers and economic scientists from all disciplines, students of universities and graduate schools of Lyon and the Rhône-Alpes region as well as local citizens interested in science and issues related to the environment.	November 29, 2011		Centre des Congrès de Lyon

PL94	Innovative approaches for the management of environmental risks from plant protection products	EURAQUA / PEER SCIENTIFIC CONFERENCE	Ashley TILGHMAN - SIBILLE	<p>The conference will:</p> <ul style="list-style-type: none"> • Identify issues at stake, describe the current status and trends, assess risks to ecosystems or farmers. Discuss governance, policy, plans for risk reduction, approaches and tools for risk management. • Present and discuss the PPP risk assessment approach, its limitations (e.g. spatial scale, multi-stress situations), the links with other regulatory texts such as the water framework directive, the use of models ... • Present and discuss researches around PPP design, developing (integrated) practices and innovative technologies which could or are intended to affect the abovementioned issues. Put these in context and question their relevance (e.g. by using life-cycle assessment approaches, or ecosystem services evaluation). • Discuss scenarios for the future and research/development needs. 	October 26-28, 2011		Montpellier
PL95	Water purification : research and engineering services for communities	CEMAGREF / GRAND LYON URBAN COMMUNITY + Water Basin Agency RMC, ONEMA, ASTEE, GRAIE	Ashley TILGHMAN - SIBILLE	National conference to establish a state of art and open new perspectives in the field of water treatment at the time of commissioning of the platform of research and experimentation on the Feissine site of his new sewage plant.	November 8-9, 2011		Villeurbanne

PL96	Water and Transdisciplinarity International Seminar	National Water Agency, Brazilian Federal Senate and Transdisciplinary Water Studies Center + Ministry of Environment, University of Brasilia, WWF-Brazil, CAESB, IBRAM, Caliandra Institute, Ararazul Organization for the World Peace, Federal District Health Secretariat, SOS Atlantic Forest, Oca do Sol Institute, Nature School, Itaipu Binational, Bank of Brazil	Sérgio Ribiero WWF-Brasil	This international seminar aims to • Expand the way we envisage water beyond the realm of common knowledge to examine its lesser known properties and new scientific discoveries. • Reflect on the different perspectives of water: cultural, religious, ethical, symbolic • Propose ways to build a new relationship with water in the face of civilizational challenges and climate change.	November 9-11,2011		Brasilia/DF-Brazil
PL97	Water, Time for Solutions	LIGNE DE FRONT, production company managed by Bernard de La Villardière.	Bernard de la Villardière	The lack of water and sanitation kills over three million children every year. The figures are shocking and the task may seem insurmountable. It is clearly an immense task, but solutions do exist. "Water: Time for Solutions" takes you to Burkina Faso, Haiti, the West Bank, or Mongolia to meet men and women who struggle every day to obtain water. Whether it's an emergency response or development projects, in the bush or in the heart of an ice desert, the problems are varied, as are the solutions. They are carried out by local, national, and international players, and they give new life and hope to the children we have met. In a global tour of solutions, from Marseille to Ulan Bator, we set out to meet the men and women who, through their will and courage, cause the precious liquid to flow and diseases to		March 14, 2012	Marseille

PL98	"Water You Acting For"-Puppet Show in several countries (France, Burkina Faso, India, Cambodia, Bolivia)	Water You Acting For- Association managed by five students from medicine, business, engineering, economics, history and sociology, highschools	Laure BROUARD	Discover and discuss local water challenges in several areas of the world using a special teamwork tool: participatory theatre.	From September 2011 to September 2012	France, Burkina Faso, India, Cambodia, Bolivia
PL99	Forum of Bamako : "Solidarity for Water in the Countries of Niger Basin "	CHIRAC Foundation	Juliette Karpa	To call for a mobilization for the right to water and sanitation in the region of the Niger River and encourage joint management of river resources, the Fondation Chirac, in partnership with the authorities of Mali and the Basin Authority Niger, organizes two days Forum on "Solidarity for Water in the countries of the Niger Basin."	10.17&18,2011	Bamako - Mali
PL100	Exchanges and international solidarity project : MAROC 2011	ADDAP 13-14	Ms Brun	Chantiers around the creation of irrigation canals made by young from Marseille 13th and 14th districts.	10.2-3, 2011	Village de Tinfat, Maroc
PL101	Educational performance "Baladine, the Water Drop"	Association "La Nature Racontée"	Henri-Marc Becquart	An original show on the subject of water, combining storytelling, science and images. The show is illustrated by an interactive film presenting the many different aspects of water (the water cycle, etc.) and its use, and is designed for pupils in primary education. The show gives pupils an introduction to the issues associated with water and concludes with the need for environmentally responsible	School year 2011/2012	Primary school Marseille and Parc Chanot
PL102	Little Water Engineers	Naturoscope Marseille + SERAM, City of Marseille, Urban Community of Marseille, Water Basin Agency RMC	Loïc PANZANI	An educational event: some talks will take place on location (Port of La Madrague in Montredon, Bain des Dames beach, Maison de la Mer at Prophète beach, on the banks of the Huveaune, etc.), in schools or at the Maison de la Nature.	From October, 2011 to June, 2012	Marseille
PL103	The Water, source of energy : visit to a water dam in the PACA region	Technical College AMPERE + EDF + The House of Sciences	Mr. BERENGER SEMPERE Brigitte GIRAUD Christine TOMBINI Franck LEGBOS Nathalie	Visit to a hydroelectric power station for 90 pupils preparing for careers in the electricity sector.	School year 2011-2012	Marseille

PL104	Testing of a new process to limit use of pesticides in the maintenance of the French railway network	RESEAU FERRE DE FRANCE + Rhône Méditerranée Corse Water Basin Agency	Carole TEISSEDE	To improve water quality and protect biodiversity, the aim of this experimental project is to reduce water pollution and thereby protect the water and natural environments.	October 2011 and during 8 years		RAPHELE – commune d'Arles
PL105	CFH-AIH SYMPOSIUM: "Water Ressources and Coastal Aquifers"	International Association of Hydrogeologists / French Chapter + City of Cassis, BRGM, AGSE, AGSO, AHSP, AFK, Association "La rivière mystérieuse" EDF	L. CHERY + Bernard BLAVOUX	Symposium on coastal aquifer resources and management. This is the 18th technical symposium of the AIH, looking at the characterisation and management of coastal aquifers and the problem of water quality.		March 15-17, 2012	Cassis
PL106	Governance & Citizenship	Authority on Grenoble's Water, Urban Community Grenoble Alps Metropolis, Water Agency RMC, Community of Drinking Water, Local Commission of the Drac-Romanche Water	Eric GRASSET, Martin GUESPERAU, Michel DESTOT, Marc BAIETTO	This event provides an opportunity to present practical concerted solutions for sharing local resources and developing international solidarity. After a morning session of round table discussions, the day will continue with a visit to the Rochefort water catchment site.		March 9, 2012	Grenoble
PL107	Film screening and debate on citizen action for environmental health and access to water: 'Drinking water for all!'	Rapsode Production association + NGO "Women in Europe for a Common Future"	Marina GALIMBERTI	Screening of 2 documentaries on access to drinking water in Eastern Europe and Sri Lanka. These documentaries will be followed by a public debate based on the films.		During the Forum	Marseille
PL108	Coastal Aquifer Management in the Meditarrean	UNESCO / International Hydrological Program (IHP) + City of Cassis, GEMISC (Euro Mediterranean Coastal Aquifer Investigation's Group)	Louis POTIE	Among other issues, the meeting will discuss management of (karstic and non-karstic) coastal aquifers in the Mediterranean, their vulnerability and protection, undersea freshwater sources, seawater intrusion and the challenges involved. The aim is to share experience (methodologies, approaches, case studies) and the lessons learned from the EU Framework Programme "COST Action 621" implemented by the EC/DGST on management of this type of resource in the Mediterranean Region.	November 28-29, 2011	March 15, 2012	Cassis / Side-Event parc Chanot

PL109	Academic competition: Water, stake of Sustainable Development	Rectorat of the Aix-Marseille Academy + Eurocopter, Decathlon	Gérald ATTALI	This academic competition should identify the problems: supply difficulties, conflicts between users, arguments caused by development and the economic, social and environmental solutions implemented		second term of the academic year	Aix-Marseille
PL110	13th Crossroads of Local Management of Water	IDEAL Network / IDEAL Knowledges	Luc RENAUDIN	The Local Water Management Forum (Carrefour des Gestions locales de l'eau) takes place over two days, and consists of a programme of talks plus a trade fair of more than 200 exhibitors. The conference programme covers a wide range of topics related to water management, enabling those working in water management for local authorities, government departments and charities to expand their knowledge and find out about successful experiences and regulatory changes.		January 25-26,2012	Parc des Expositions de Rennes
PL111	Interdisciplinary Meetings on Water (TRI'Eau)	VERSeau Development Association + Arc Latin, General Council of Hérault, Agropolis International, Programme SICMED	Marc CHOUKOUR	This conference will be held in Montpellier from 7 to 10 March 2012. TRI'EAU plans to present practical solutions, identifying and developing the necessary knowledge and transfer methods for particular actions to improve water management in the Mediterranean		March 7-10,2012	Montpellier
PL112	"Management of Mines Water" Exhibition	BRGM - DPSM (Mines Prevention and Security Department)	Marc NICOLAS	Exhibition presenting topics associated with mine water management, explaining the geological and hydrogeological context, the history of mining in the Aix Gardanne basin, quality and remediation issues, and energy and metrology issues		March 14-17,2012	Galerie de la Mer, Cap Pinède - Marseille
PL113	Congress Stream of Talloires 2011: Quantitative Management of Water Ressources and Preservation of Aquatic Ecosystems	FRAPNA + Water Basin Agency RMC, Regional Council of Rhone-Alpes	Marie HEBERT	This symposium on quantitative management of water aims to present the public with examples of local management of the issue in order to encourage everyone to engage in a dynamic, to achieve a better preservation of water resources and aquatic environments.	October 22, 2011		Talloires (74)

PL114	Participative conference about Water Problems in Provence and about the Way SCP managed these Problems within a sustainable development concern for the Sea	Société du Canal de Provence	Hélène BOBO	Participatory conference on water issues in Provence and its responsible and sustainable management provided by the SCP in the service of regional territories.	School-year long 2011-2012		Provence
PL115	CONS'EAUMMATION - Educational tools to the consumption of water	"Atelier Méditerranéen de l'Environnement" Association + City of Marseille, Water Agency RMC, SERAM, Nikinomo Agency	Delphine Duclos	An exhibition and a game. Through the board game, participants can explore the uses of water, consumer behaviour and ways to save water. Through the exhibition, in addition to information, models and touchscreens will also be provided so that visitors can get a better idea of the realities, find answers to their questions, test and check their knowledge, and understand the issues linked to excessive consumption.		During the Forum	Maison de l'Ecologie Urbaine et Pratique et parc Chanot
PL116	Water Carriers	Le Chatelier High School + "Les petits débrouillards" Association	Alice MATIJEVIC	Work on two themes: the role of women in access to water governance in emerging countries, and pollution and water treatment and distribution systems	From September 15, 2011 to February 25, 2012		Marseille
PL117	Exhibition, Conference and Game: H2 OH The Life	Vauvenargues High School + SCP, EDF, SEM, Eurocopter	Délia TRONCONI	Students propose games and quizzes, an exhibition, different experiments, two talks and a film. 'Even the rain'		During the Forum	Aix-en-Provence
PL118	Exhibition: "Water Territories. Irrigation and Water sharing in the Mediterranean"	IRD / Departemental Library of Bouches-du-Rhône + General Council of BDR, National institute of Audiovisual	Marie-Lise SABRIE	This exhibition is designed as a 'trip downstream' taking the visitor from mountain irrigation systems down to large coastal deltas, via oases and flood plain irrigation systems along the way. The exhibition aims to explain how irrigation, which raises the important issue of water-sharing within territories and societies, lies at the heart of the Mediterranean cultures and landscapes	February 17, 2011 to July 13, 2012		Librairie Départementale des Bouches du Rhône

PL119	Water and Health Day	Community of Grand Lyon / Water Agency RMC	Jean-Paul COLIN, Martin GUESPEREAU, Fabienne GUILLOT	Organisation of a day of reports and debates bringing together scientists, water users and water managers. The day will provide an opportunity to find out where the frontline of science lies in relation to the risks inherent in water, and to discuss solutions being implemented by local authorities to manage these risks.		January 23,2012	Centre des Congrès de Lyon
PL120	WAT-A-GAME (WAG)	G-eau CEMAGREF + CIRAD, ONG AWARD (South Africa), LISODE	Nils FERRAND, Géraldine ABRAMI	WAG is a method and toolkit for representing, designing, simulating and assisting with the management of water in river basins with all those involved with them.		During the Forum	Marseille
PL121	Rhône Plan Meetings	Basin Rhône-Méditerranée Coordinator Prefect + Rhône Plan	Anne-Marie GARCIA	This event presents a mid-term review of the CPIER and the POP FEDER Plan Rhône, identifies future actions to be conducted within the various components, and encourages forward thinking on the follow-up to the Rhône Plan after 2012.	November 21, 2011		Palais des Papes à Avignon
PL122	Chyulu Hills Water Catchment Community Deliberation Forum	Sikizana Trust for Community Development + Radio Mang'elele	Cosmas NZILILI	The Forum highlights the damaging actions (massive destruction through coal burning, illegal logging and wood carving) occurring in this water catchment area.		February 24,2012	Kenya
PL123	Gender and Water in the Lusophone Community: Solutions for Water Decision-Making in Portuguese speaking countries	Instituto Ipanema + RELUSA (Lusophone Network for Water Capacity Building), GWA (Gender and Water Alliance), Cap-net, NGO NADEL (Guinea Bissau)	Joana Carlos BEZERRA, Teresa Priscila D. GOMES	The aim of the project is to promote the exchange of experiences and therefore solutions. One person from each Portuguese-speaking country will present their particular issue as regards the safety of people and food and their action for change.		During the Forum	Parc Chanot

PL124	Fresh Water, Pure Water, Ô Hisse et hauT	APC3M (Association for the Promotion of the Bouches-du-Rhône) + Academic Inspection of the Bouches-du-Rhône in the project MPCEC 2013 (Arts Plan 2011-2014), City of Marseille, U-Marinu CPIE Bastia Golo Network Mare in Festa, Bureau of the Sea Marseille Provence, Pacific Exploration Le Manguier, Fiesta des Minots, AIPB, The Enfantastiques, The Vallonés, The Lyrone, The Pied Nu, Icard Maritime Company	Philippe ODDOU	Giving Marseille schoolchildren and teachers involved in the Chante13 initiative the chance to participate in the Forum, also with a view to Marseille's forthcoming status as European Capital of Culture in 2013, in accordance with the 2011/2014 Arts and Culture Academic Plan. Giving these schoolchildren and their teachers an opportunity to pass on what they have learned in song on the fact that the availability of clean, fresh water, in all times and places, is fundamentally important for healthy living.		March 05-12,2012 and 16,2012	Port Frioul, radios, sites internet
PL125	ECOL'EAU - Water Fountains	Edmond Brun Elementary School in Trets	Pascale CARDONA	This multidisciplinary project aims to educate children about the importance of ecology, the presence of water in Provence and measure its position in the local heritage. Further events will complete this project through the municipality.	School year		Trets
PL126	International student competition: CityZen Water	Suez Environment	Sophie PAYENNEVILLE	The aim is to involve students in the discussions that will be conducted during the Forum, particularly those on their future, the city of tomorrow. This competition is aimed at all students in higher education studying general engineering, hydraulics, management, architecture, design, computer science, social sciences, etc. in France and the Mediterranean basin		During the Forum	Parc Chanot
PL127	Children's Solution! Let's discuss on Water Issues with Japanes Children	Foundation of River and Watershed Environment Management	Kazunari SUGAWARA	Presentation of solutions by Japanese children - Discussions between children. The themes will mainly concern the prevention of water-related disasters, protection of the water environment, experiences of river safety, and water-related cultural heritage		March 15,2012	Marseille / Parc Chanot

PL128	Water: public-spirited Stake	Daumier High School	Thierry CHARIEAU	Themes of the projects: Water management in Marseille and water as an issue in the conflict between Israel and Palestine		January to March 2012	Marseille
PL129	Get Involved in Eco-Construction	Chamber of Commerce & Industry Marseille Provence (CCIMP)	Martine EGELE	Mediterranean conference on the theme: 'Preserving and managing water resources through the eco-friendly construction of new or renovated buildings' and interactive presentation of solutions: 1) practical guide – green paper of best practices in the Mediterranean for managing water as part of eco-friendly construction; 2) platform for		March 15,2012	Marseille / Parc Chanot
PL130	Ô MAMA Ô	Theater in Flames Company	Corinne TEMSTET	Musical water show for the very young (aged from 6 months to 5 years)		March 15-17,2012	Marseille / Parc Chanot
PL131	Words and Music of the River of Senegal	NGAARI LAAW - “Cultur and Developement” + DOEN of Netherlands, OMVS	Abou THIAM	A 90-minute show. The river's orchestra consists of four singers (two women and two men) and eight instrumentalists from Guinea, Mali, Mauritania and Senegal.		During the forum until February 2013	Marseille / Parc Chanot
PL132	Scientific and cultural days of youth for water - volunteers youth international programm in the great lakes region	CARAC (caravan of cultural activities for sustainable development), AIPD NGO	Yannick Nkyu Salomon	These scientific day events will be based simultaneously around culture and youth to take action with regard to access to water, the fight against poverty and cross-border relations.		January 29-30, 2012	Institut français (Halle de la Gombe) Kinshasa - RDC
PL133	Publication: "New perspectives for the management of water projects"	OXYO WATER + Unesco Water Sciences Division, «Programme and Project Management» Research Center in Lille, France, 273 stakeholders interviewed in the 10 basins, Artois Picardie Water Agency	Emeline Hassendorfer & Benjamin Noury	Publication of a unique field study of 10 cooperation projects in 9 cross-border basins in a publication entitled 'Tackling Water Complexity'.		During the Forum	Marseille / Parc Chanot
PL134	Interactive and photographic exhibition: "Mettez-vous en résEAU"	Goethe Institute / Deutscher Gewässerschutz e.V. (Bonn) + General Consulate of the Federal Republic of Germany	Dagmar OSTERLOH	Interactive exhibition on water and sustainable water management throughout the world on 3 main themes: Water in the world/Water, a valuable resource under threat/Time to act and solutions. Photography exhibition 'Water: from courtyard to garden'.		During the forum	Marseille / Parc Chanot

PL135	Water Week (Albi - France)	Tarn Agro-Environmental Establishment, GH2O Technology Platform	Bernadette COURTIADÉ	Throughout the week, activities, exhibitions, fun or educational workshops, talks, tours, and themed evenings will be on offer to schoolchildren of all ages and those living or working in the area.		January 30 to February 03,2012	Albi
PL136	"Appropriate Technologies for Access to Safe and High Quality Water": workshops, filming, conference	Movimiento Agua Juventud Guatemala	Maidy Graciela Cordova Audon, Maria Gabriela Chaulon Vélez, Claudia Lucia Carrillo Flores	Workshops, film and lectures on the establishment of conditions under which a system of water treatment processes based on heterogeneous photocatalysis chemical advanced oxidation can be applied for decontamination of water by pesticides, widely used agriculture in Guatemala, in order to provide appropriate technology to communities, to make them aware of the use of water resources and to alert them about their	December 17-18,2012	January to April,2012	Lachuá lagoon Altaverapaz Guatemala communities / Guatemala City / Parc Chanot
PL137	A Three Dimensional Study: "Water an infinite source ?"	Marseilleveyre High School	Marie DE RIBEROLLES, Madame SABATIER	A draft study focusing on three areas: a study of communication about water, as part of the 6th World Water Forum in Marseille; a study of water as an essential resource (GEO); and a study of water as a subject in literature (LITT).		January to June,2012	Lycée Marseilleveyre (Marseille)
PL138	Educational website: "Water, from Abundance to Scarcity"	Honoré de Balzac High School	Basma FARAH	A platform for learning at the address http://formation-balzac.scola.ac-paris.fr/www/index.php/ http://eaucoeurdumonde.e-monsite.com will be put online during the Forum.	On-line for the Forum		Rectorat de Paris pour l'hébergement du site
PL139	Water "here" and "elsewhere"	L. Blériot High School, School of water business, energy and environment	Sébastien PEROTTO	Raising awareness of water production and wastewater treatment "here", opening up to "elsewhere" with the creation of a model and exhibition displays.		March 15,2012	Hall du LP L.Blériot Marignane
PL140	Painting Exhibition: Splash!	Cultural Association "Station Alexandre" + St-Gabriel Social Center	Olga Mykhaylychenko	Exhibition of paintings by Alix Paj and painting workshops which will also be offered to children in partnership with Saint-Gabriel community centre (Marseille, 14th arrondissement). During these workshops, various issues concerning the environment, and more specifically the world's water resources, will be raised.		March 05-17,2012	Station Alexandre (Marseille)

PL141	Short Film "Water and Environment" Festival of Montpellier, Third Edition	"Messages pour la Terre" Association + International Water and Film Events, RMC Water Agency, General Council of the Hérault Department, City of Montpellier, Rector of the Academy of Montpellier, Association Verseau development, the "Maison pour Tous" of the Montpellier Agglomeration	Michel DUKHAN	Film and discussion evenings with experts in water, the environment and documentary filmmaking.		February to March,2012	Montpellier
PL142	Water and Culture: a sensitive approach of creative mediation for a new generation of environmental education	RIHN Research Institute for Humanity and Nature Japan, Kenichi Abe / Noriko Izuka (NPO MOYAI Network) Seine-Saint-Denis department, Direction for Water and sanitation, French Water Academy + Aulnay-sous-Bois City, Seine-Saint-Denis, 'Eau est le pont (ONG), Water Academy, Intermunicipal association of the Corniche des Maures, UNESCO	Julia Böhler / André Baraglioli	The initiative 'Water and Culture': mediation methods for a sensitive approach to environmental education' aims to report on initiatives based on discussion and the sharing of experiences and knowledge designed to accompany individuals towards a better understanding of water by establishing relationships of mutual trust between professionals and users.		During the Forum	Parc Chanot
PL143	The AVCOI Congress 2012: "Water in insular Areas"	AVCOI (Association of Cities and Communities of the Indian Ocean) + City of La Possession (La Réunion)	Matthis LAMY	Plenary session with presentation of the problems of water in island environments, then two workshops that aim to encourage the exchange of experiences among participants, and organisation of a competition for schools.		February 23-24,2012	Antsirana (Diégo Suarez), Madagascar

PL144	Water in Corsica: coordinated management of a valuable resource serving territory	Environment Office of Corsica + Office of Hydraulic Equipment of Corsica, EDF, "PIE A Rinascita de Corte", Rectorate and School Boards	Pierre VELLUTINI	Water, source of life (from drinking water to agricultural use), source of energy, source of wealth... ' offers young people an information and awareness-raising day, to help them understand the joint management of water by the different agencies involved. From source to point of use, understanding the challenges associated with water through an educational 'catchment, channelling, storage, distribution' journey led by professionals and experts from education to the environment.		March 05-10,2012	Une journée en Corse-du-Sud (Ajaccio et vallée du Prunelli) et une en Haute-Corse (Corte et vallée du Golo)
PL145	Discover the drinking water cycle: Open day at the Sainte-Marthe drinking water treatment centre in Marseille	SEM, MPM	Sophie VAGUE, Anne-Christel GIRALDI	A chance for people to find out what happens at Marseille's largest water treatment centre, which is normally closed to the public. This guided tour by Société des Eaux de Marseille staff will give visitors an understanding not only of the technical aspects, but also of the importance of water and of careful water management in the city.		January 05 to March 10,2012	Centre de traitement d'eau potable – Avenue du Merlan (13014 Marseille)
PL146	All in the Water	CAIRN Association + General Council of Bouches du Rhône, Le Kaméléon Company, Verre d'O, Surfrider 13, Social Centers "Olivier Bleu", "Saint-Gabriel", "Saint-Joseph Fontainieu" and "Saintes-Marthe"	Cathy PROVOST	A "green" day at the Relais Nature St Joseph, with "Odaló" a show put on by the Kaméléon company; activities organised by the CAIRN team on plant life and water in the Mediterranean, water and the educational pond, water in all its states and water issues in Marseille from the Middle Ages to the present day; a day of collecting waste and raising awareness of marine pollution. The glasses collected will be recycled and made into art objects at the Verre d'O studio.		February 01 to March 17,2012	Centre sociaux marseillais

PL147	Promoting among the general public process "to limit the use of pesticides in the maintenance of french railway"	Réseau Ferré de France + Water Agency RMC	Carole TEISSEDE	Finding alternative solutions for controlling vegetation along railway tracks to reduce pesticide use. To meet national and European objectives to improve water quality and protect biodiversity, the aim of this experimental project is to reduce water pollution and thereby protect the water and natural environments.		March 12-17,2012	Gare Saint-Charles (Marseille)
PL148	Exhibition: "Take me to the River"	Museum of Tapestries (Aix-en-Provence)	Christel ROY	Twelve international artists, together with three artists based in the Provence-Alpes-Côte d'Azur region will create works specially for this exhibition (installations, photography, video, painting, etc.). Before this, awareness-raising and mediation for schoolchildren and social clubs will be organised. Together, they will produce a collective work, supervised by the artists, who will hold a workshop in art practices, called the "Outreach Program", during their stay in Aix-en-Provence.		March 15 to May 20,2012	Pavillon de Vendôme (Aix-en-Provence)
PL149	Carnival of Marseille, 6/8 sectors	Mairie de Secteur de Marseille 6e/8e + Karnavires Association	Aline LIMAZZI	Parade by 10 out-of-school clubs for children aged between 3 and 12 years, on the theme of water		March 14,2012	Parc Chanot
PL150	Cooperative Optimal Water Leadership in Pakistan	LEAD (Leadership for Environment and Development) Pakistan + Pakistan Planning Commission, Pakistan Meteorological Department, French Embassy in Pakistan, FRS, CERIC, CIRAD, Communautaires,	Hina LOTIA	Promoting and implementing tailored solutions for the water sector in Pakistan, in support of a multi-sector group of young professionals (water users) to promote research, implement and communicate on actions and solutions related to the themes chosen by the World Water Forum.	November 2011 to March, 2012		Pakistan et Asie du Sud

PL151	Water, here and there	Roland MOTTE + CCFD Terre solidaire, ASOC (Organization for the Conservation of the Chenini Oasis), CARI, Luberon Regional Park	Roland MOTTE	The three projects undertaken will: enable an audience of secondary students to take a reasoned look at the problems of water in a Tunisian oasis; inform an adult audience about increasing water scarcity in arid areas; explore ways of managing water through different types of agricultural production, through the making of a video by secondary students and a video screening to an intergenerational audience (e.g. the Forum); get secondary students involved in a project through the creation of an exhibition to be displayed at the Water Forum.		January 16 to March 22,2012	Manosque et Volx
PL152	Water Festival of Luminy	Unis-Terre (EUROMED Management) + éBAM (student organization of the arts school of Luminy), Voiture&Co (carpooling), CCL (Cultural Center of Luminy)	Ivan BOUGNOUX	Every activity planned for the Festival has some link with water: talks; screenings of film shorts and feature films; debates; activities; theatresports; art competitions; private view; eco-concert.		March 12-14,2012	Luminy (Marseille)
PL153	Apér'Eau corsaire, with Titouan LAMAZOU	"Actions Planète Propre" Association	Bruno CUZON	Gathering on Sunday 11 March 2012, the day of the spring tide on Sillon beach in Saint-Malo, to raise awareness to the protection of water and its environment.		March 11,2012	Plage du Sillon à Saint-Malo (14-18h)
PL154	Theatral exhibition: "Half to start"	Theater Association of Valbonne "Les enfants du Paradis" + Fondation Sophia Antipolis, City of Valbonne	Eric LOUIS	Play entitled "Half to start" from Stephane Schler. Black and funny comedy on the shortage of water.		During the Forum	Département des Alpes Maritime
PL155	"Water Carriers" and participation by European youth	Les Petits Débrouillards PACA	Hugues BRU - Solène MERER	This project aims to get groups of young people interested in water-related themes, prior to the Forum, and integrate these young people in a project initiative on the theme of water, developing their understanding of sub-themes, using seminar tools and methods designed to explore controversial issues and by becoming involved in the project for the long term.	September 2011 to March 2012	Parc Chanot	

PL156	Exhibition: "Europe and Water"	Regional representation of the European Commission (Marseille)	Corinne VIDAL	The exhibition, consisting of 12 display panels, will explain the problem of water in different European policies.		March 12-17,2012	Bibliothèque de l'Alcazar (Marseille)
PL157	Odysée des Familles : a voyage to discover the 6th continent	"Famille de France" National Federation	Sébastien LEFEBVRE, Sonia TROADEC	The project consists of two parts: AQUA "crossing the Mediterranean – the Atlantic – the English Channel and the North Sea in an old ship". Stopping over at a number of French ports, this covers the French coast. At each stopover, the ship will welcome young "ship's mates" aboard, to bear witness and become future ambassadors, mobilised to hold awareness-raising workshops. - "TERRA "the eco-citizen village and the Familles de France land-based sailing boat". An awareness-raising village (stands with educational and entertaining displays) will be constructed at each port stopover and during the tour on land.		March 09 to June 30,2012	Début à Marseille et tour de France
PL158	The Defenders of Water or "Advocates" faced with the Incredible Diversity of Legal, Economic and Human Challenges Associated to Water	Marseille Bar Council	Jerôme GAVAUDAN, Marie-Christine WASSILIEFF-VIARD	Symposium of 3 successive round table discussions on the themes of the right to water, water resources and the environment and economic activity.		March 14,2012	17-19 heures au Parc Chanot
PL159	Film : "European Lakes... Lakes for the Future"	Atlantic Television + European Agricultural Foundation, Water Agency Loire Britain, Hischool Leonard de Vinci (Vendée, France), Regional Council of Pays de la Loire, County Council of Loire Atlantique	Jean-Louis PELISSIER, Laetitia LANGLAIS	A 26-minute documentary about 4 lakes in Poland, Hungary, Spain and France.		During the Forum	Parc Chanot

PL160	Model of Water treatment, version secondary school and STI2D fields (Sciences & Technology of Industry and Sustainable Growing)	Company FBO	Jean-Louis FAURE	Distribution of models to 11,000 schools to make as many young people as possible aware of the importance of water by relating it to other subjects taught in schools: sustainable development, energy, meteorology and climate science, health, physical, chemical and environmental characteristics.	November 2011 to 2012		Etablissements scolaires
PL161	Hiking Project & Discovery of the Local Heritage	Humeur Vagabonde	Lionel MARCHESE	This project aims to raise public awareness of the importance of water for Man and the Environment, discovering and learning about our rich heritage related to water, promoting the land heritage and cultural environment of Provence through relaxed, friendly discussion.	September 25, 2011 to March 19, 2012		Du 12 au 17 mars 2012 : 1 randonnée par jour en alternance dans les Calanques et à la Sainte Victoire / Du 9 au 19 mars 2012 : 2 randonnées par jour dans les Calanques
PL162	"From the glacier towards the sea" - Water in Mediterranean sea : one resource, a lot of uses	The Regional Union of CPIE (Permanent Centers for Environmental Initiatives)	Jean-Baptiste Lanaspèze	The 7 environmental initiative centres (CPIEs) in the PACA region have set themselves the objective of tackling the issue of water usage problems through 'From glaciers to the Mediterranean', continuing an initiative begun in 2003 along two main axes: 1. Identifying the problems associated with water use 2. Development of the observatory of water-related problems		January to March 2012	Parc Chanot
PL163	AQUAMADRE 2012	Aquamadre + members of RIOB	(Via J-F Donzier)	Presence of a 'River Community', those working in the field, representing countries all over the world, on activities associated with mountain rivers; organisation of workshops and two plenary sessions		During the Forum	Parc Chanot

PL164	Water, source of solidarity and exchange between European and African youth - Burkina Faso/Madagascar/Romania/France	League of education in Yvelines (78) + CRIM - ASSODEC - League of Madagascar	Annick Martin	Solidarity in Burkina Faso, providing the opportunity for rich and varied cultural exchange as well as developing awareness of how precious water is and how crucial it is to develop the most reasonable management system possible for this vital resource. This experience will give rise to the various partners discussing together the solidarity programmes as a way of getting young people involved and also as a way of improving dialogue between Europe and Africa.	October 2011	March 2012	Parc Chanot
PL165	Water Supply Security: an Example of the PACA Region	AR9 IHEDN (Institute of Higher National Defence Studies)	Bernard A.R. DREYER	Organisation of meetings (since September 2010) of Study Groups set up in each département in the PACA Region (two in the Bouches-du-Rhône); lectures given by experts at the Préfecture in Marseille; site visits.	Since September 2010		Région PACA
PL166	Phytopurification, technologies which are innovative, environmentally and perfectly in line with the sustainable management of water: guided tours, exhibition and round table conference	Ying Eco Partners, Recycl'eau®, Provence University (IMEP), Paul Cézanne University, CEMAGREF	Runying WANG	The event will take place in three stages: 1) three guided tours of phyto-purification installations; 2) an exhibition presenting the principle, concept and application of phyto-purification technologies; 3) a conference and round table providing an opportunity for direct discussions between those working in the field and participants in the Forum		February 20 to March 17, 2012	Faculté St Charles (Marseille)
PL167	HUNAMAR	HUNAMAR (Huveaune Nature Marseille) + Cities of Marseille, Nasn-Les-Pins, Saint-Zacharie, Auriol, Roquevaire, Aubagne, La Penne sur Huveaune, Neighborhood Committees, Collectif Huveaune, Syndicat Intercommunal de l'Huveaune, SERAM, Rando Soleil	Erica TAUBE	The subject for debate during the Round Table will be: How can we protect the Huveaune River? By means of a water management and land-use planning scheme or a “river contract”? Speakers will include representatives of the Syndicat Intercommunal de l'Huveaune (the local inter-commune planning authority), the Association de Défense de la Basse Vallée de l'Huveaune (association for the protection of the lower Huveaune valley), and possibly the SERAM, among others.		March 17, 2012	Marseille

PL168	Stamp Exhibition	PHILAPOSTEL-PACA	André LAURENT	The theme of the exhibition (in the form of 50 frames of exhibits) is the utility and household use of drinking water: how to transport, store and not to waste it.		During the Fotum	Marseille / Parc Chanot
PL169	Technical Visit of the Port of Marseille-Fos	G.P.M.M. (Grand Port Maritime de Marseille)	Anne-Hélène MERLO	Technical visit organised by the Port of Marseille-Fos. By boat, discover the harbour facilities, activities and big projects of the Port of Marseille.		March 14,2012	G.P.M.M. (Grand Port Maritime de Marseille)
PL170	Visit of the Shipyard and the Nauticales	MPM, City of La Ciotat	Monsieur COLOMBANI	Visit of the shipyard of La Ciotat and opening of the Nauticales.		March 17,2012	La Ciotat
PL171	The Run of River	City of Marseille, Museum of Marseille	Emmanuelle Farey	Marseille's art galleries bring together a selection of works of art representative of the great artistic movements from the 18th century to the present day, at the Vieille Charité. On the theme of water, this selection provides a chance to discover, or to rediscover, some masterpieces from the permanent collections held at the Museum of Fine Art, the Cantini Museum and the Marseille Museum of		February 23 to March 25,2012	Centre de la Vieille Charité (salles Puget et Allende), Marseille

PL172	Seminar on water conservation in Europe	RMC Water Agency, Académie de l'Eau	Pierre-Frédéric TENIERE-BUCHOT	Comparative discussions were recently launched in Europe through various channels implemented by member countries in application of the European Water Framework Directive, particularly with regard to assessing the Management Plans (in France: Water Development and Management Master Plan (SDAGE), the Measurement Programmes (PDM) and drafting of a new European Water Resources Strategy (Blueprint, at the end of 2012)). These discussions are part of preparations to set up the 10th water agencies programme 2013-2018, the mid-term revision of the PDMs and the drafting of new SDAGES in 2015. Among the stand-out priority subjects are economic tools and tax systems, with the challenge of drawing European comparisons.		February 23,2012	Lyon (RMC Water Agency - Salle Rhône)
PL173	"Natural water areas" conferences	City of Marseille, Conservatory of littoral, RMC Water Agency	Didier REAULT	Four evening sessions/round tables organized around the themes of "natural water areas" and "protecting the coastline".		March 12-15,2012 (18H30-21H)	Galerie Montgrand, Marseille
PL174	"Water: from sky to tap"	Chartres Métropole	Nicolas ALONSO	Round table focussing on the water cycle, chaired by Jamy Gourmand		March 29,2012 (20H30)	Hôtel de Ville de Chartres
PL175	'Great Lakes Youths for Water' Forum held as a prelude to the 6th World Water Forum	Association "JEVOGRALE"	Mr Prince WILONDJA WABILIMA	Conference-debates, exhibitions, cultural events, visits to two reforestation centres on banks of waterways in the region. The central themes running through all the events will be water and youth		February 28-29,2012	Bukavu (RDC)
PL176	Exhibition: "Joseph Garibaldi, the tranquil South"	"Regards de Provence" Fondation	Pierre DUMON	The Regards de Provence foundation pays tribute to Joseph Garibaldi, a painter from Marseille (1863-1941), by presenting the first ever retrospective of his work, with more than 90 paintings and drawings of his favourite subjects: the Old Port in Marseille and the Provençal and Corsican coasts, architecture, daily life in rural areas, animals and still life.		March 10 to July 01,2012	Palais des Arts, Cours Julien

PL177	FReDD-2012 "Film, Research and Sustainable Development" – Water, Life and Other People, the Festival	UVED, University of Toulouse 2, EDF Toulouse, CIRAD, Fondation 2ie, City of Toulouse, Sciences et animation	Yves ARDOUREL	Audiovisual communication and scientific approaches to issues related to sustainable and socially cohesive development. Five themes concerning water-related issues to be discovered, considered and researched: Solidarity; Energy; Living Beings; Economy; Health, cities, agriculture and food.		February 15 to April 07,2012	Université de Toulouse II Le Mirail
PL178	Photographic exhibition by Camille Moirenc: "Aigo*, water in Marseille" (*Aigo = 'water' in Provençal dialect)	MPM	Eric ANGELICA	Photographic exhibition by Camille Moirenc: "Aigo*, water in Marseille" (*Aigo = 'water' in Provençal dialect)		March 8 to 25,2012	Cours Honoré d'Estienne d'Orves
PL179	"Sanitation is dignity" exhibition	Coalition Eau	Anaïs MOUREY	Travelling exhibition that highlights an essential, if undersdiscussed, challenge facing human health: access to sanitation.		During the Forum	Parc Chanot
PL180	"Water" section of French regional plan for health and environment (PRSE)	Regional Health Agency, Regional Directorate of Environment, Physical Planning and Housing	Muriel ANDRIEU-SEMMELE, Yohann PALETTE	The Regional Health Agency (ARS) and France's Regional Environment, Development and Housing Departments (DREAL) co-manage the Regional Health and Environment Plan, a partnership-based approach with three sections, including water: "secure and guarantee access for all to a quality resource to reduce health risks related to different uses of water". In concrete terms, this "water" is broken down into an action plan organised into eight actions and 50 operational projects at different regional scales.		2009-2013	Région PACA
PL181	Exhibition "Water and international solidarity"	Adour-Garonne Water Agency	Marc ABADIE	Exhibition of 16 panels presenting the key 'water access' challenges across the globe, the main aspects of decentralized cooperation, a successful French solidarity-based system and its implementation by the Adour-Garonne water agency.	December 9,2011		Bordeaux
PL182	The Minute	Solidarités international	Sophie GHALEB	Dedicated website where a petition can be signed and messages of support can be posted for humanitarian causes, such as access to drinking water and sanitation for all citizens of the world. Several celebrities will endorse this campaign.		January to March 2012	Marseille / Parc Chanot

PL183	Training module: “The economics of managing the demand for water in the Mediterranean”	CEFEB (AFD)	Philippe BOSSE, Sarah BOTTON, Dominique ROJAT	A combined training concept: a presentation of economic concepts, tools and instruments to manage the demand for water, including: an assessment of the overall cost and value of water; market failures in the water sector, charges for water recovery and costs; virtual water analysis; decisions taken in terms of trade between and within the sector-based water distribution entities; a best practice summary; case studies and role plays; discussions concerning future options in countries where the seminar is held, based on ongoing studies and research conducted within the framework of the CMI/EW2 programmes (among others).	December 1-4,2011	Other seminars planned	Jordan, Morocco, Tunisia and other Mediterranean countries
PL184	Conference: "Economic Law of Water"	Multidisciplinary Institute of Water and Environment (IPEE - Cezanne University)	Vincent ROUX, Laure MARLIERE	High-level symposium on theme of “Economic water rights”, organised by the Faculty of law and Political Science, at the Aix-Marseille University.		February 10,2012	Faculté de Droit et de Science Politique (Campus Marseille Canebière)
PL185	Conference on Innovating, Financing and Improving Drinking Water Access in Africa	RICAPEC (International Network of African Professionals for Water, Environment and Climate), ANCMP (Senate of the National Association of Ministers and Parliamentarians) + African Minister's Council on Water	Amadou BA	The conference will serve as a platform for two main areas of discussion: firstly, the issue of water, to ascertain how the most disadvantaged areas can exercise their right to obtain access to water; and, secondly, the issue of flood prevention within the context of urban planning. This issue is crucial in terms of developing African towns, since urban policies pay little regard to environmental issues. As a result, environmental impact studies are often overlooked prior to construction works.		January 20-21,2012	Sénat à Paris
PL186	Conference and Publication: "Goeconomy of Water"	Institut Choiseul	Alexandre SCHOEPFER	Special edition of the Géoéconomie review “Water: the end of hypercompetition” and organisation of the 7th Conference into the geoeconomics of water.		January to February 2012	Paris

PL187	Odalo Show	Le Kaméléon Theater Company + Regional Council PACA, General Council of Bouche-du-Rhône	Hubert ROLLET	Children's theatre show (for ages 5 to 10) on the theme of water. Odalo tells the story of two characters: Mr Od, a peasant from Provence and Mr Alo a tourist guide in Tuvalu. The two will share a string of adventures, laughing all the way. The things that happen to them make them think about the future of humanity and they change how they behave to ensure the survival of the species. Water is the key focus of their concerns and, little by little, they come to realize how precious this natural resource is and how essential it is to preserve it.		March 17,2012	Parc Chanot
PL188	Water and Youth: "1st Subregional Days of the countries of the Economic and Monetary Union West African (U.E.M.O.A)"	Association of Young leaders of U.E.M.O.A (Bamako-Mali) + Ministry of Water and Energy (Mali), Commission of the U.E.M.O.A, National Youth Council (Mali)	Amadou Karimou MAIGA	The "Water and Youth" days in West African Economic and Monetary Union (UEMOA) countries have set the challenge of creating an arena for debate into the society model to which they aspire, and organising their actions in consequence. The "Water and Youth" days will provide an arena where the agents for change will rally their communities throughout the world to highlight their reality and to move forward together to create a REGIONAL ACTION NETWORK FOR WATER.		February 05 to March 17,2012	Centre Régional de l'Energie Solaire - Bamako- République du Mali
PL189	Photographic Exhibitions: "A fleur de l'eau"	General Council of Bouches du Rhône, Departemental Library of Bouches du Rhône	Marie-Paul NEGRE	The exhibition was put together over the course of several years and explores the theme of water, seen as if it were another world where the photographer builds another landscape and produces new images.		February 07 to June 30,2012	Bibliothèque départementale des Bouches-du-Rhône Gaston Defferre
PL190	The Fountain of Venus	General Council of Bouches du Rhône, Departemental Archives + "Mars en baroque" Festival	Cédric HARDY	Libertine stories and French music from the XVII and XVIII centuries.		March 14,2012	Archives départementales - centre de Marseille

PL191	Theatre production: "Le lavoir" (The Washhouse)	General Council of Bouches du Rhône, Departemental Archives + "Le Théâtre de l'Epée de Bois" Company	Cédric HARDY	A text that gives a voice to washerwomen whom society ignored: simple stories unfold around the wash basin. Protected by the codified individuality of this feminine ceremony, and united by their difficult living conditions, these women talk frankly, revealing small or big events from their tough lives; they listen, bicker, sing, dance and laugh to forget their troubles. Nicknamed the "windbags" by cynics, the washhouse became host to a universal collective memory.		March 07,2012	Archives départementales - centre de Marseille
PL192	Photographic Exhibition: "Precious Water, Wild Water"	General Council of Bouches du Rhône, Aix-en-Provence Art Gallery	Cédric HARDY	This photographic exhibition is the opportunity to discover several eras and many uses of water through the eyes of our greatest photographers and visual artists, from Manray to Douglas Gordon.		February 09 to April 10,2012	Galerie d'Art du Conseil Général - Hôtel de Castillon
PL193	The path of Water, from the perspective of Edmond Baudouin	General Council of Bouches du Rhône, Aix Departemental Archives Center + Departemental Loan Library, Aix-en-Provence Tourist Office	Cédric HARDY	A "travel log" on the theme of large-scale works and successive developments made in terms of mobilizing and distributing water, an essential resource, to meet the demands of the end-users: Aix and Marseille, as well as the agricultural sector.		March 2012	Archives départementales - centre aixois
PL194	Photographic exhibition "The Seven Wonders of Water"	Claude Delmas (author of photographic exhibitions) + various partnerships with musicians & concert artists (Michel Garnier – Jean-Christian Michel) + Eaux Sans Frontières + perhaps, the Rotary club & the municipality of la Roque d'Antheron	Claude Delmas	Claude Delmas endeavours to awake public awareness of the intimate beauty of water (to discover its very "soul"), its fragility, and the need to preserve, or share it, in accordance with the Universal Declaration of Human Rights and the United Nations Declaration (28/07/2010) on the universal right to water; to make water a 'Source of Peace' rather than the conflicts that prevail today, seen as the only solution to water shortages... Art as a communion vector around works devoted to Water!		During the Forum	Parc Chanot
PL195	Photographic exhibition: "Magic Water"	Yves CHOURAQUI Photographe	Yves Chouraqui	Yves Chouraqui aspires to present us with the soul of water.		During the Forum	Parc Chanot

PL196	Photographic exhibition: "Portraits of Water"	Anne Heurtematte	Anne Heurtematte - Textil Designer & Consultant	<p>Another way to comprehend and represent water: its artistic dimension. Water, with air and light, are the most precious assets offered by the Earth. No water, no life. This element, the quality and abundance of which are essential, is often overlooked, with focus on other, more "visible" problems: greenhouse gases, etc.</p> <p>Water is everywhere: rivers, precipitation, human beings (55% of human body), animals, plants. This element is common to all living things, providing a link between man and Earth. The power of water lies in its ability to give life and to feed it. But water does not only give life, it also stimulates it: reflections are an integral part of water, of its magic, and lend it a materiality that is only found elsewhere in ice and frost. Reflections are everywhere: from the largest waterway, to the smallest puddle, and, of course, the water drop, a microscopic quintessence of reflection and a mirror that magnifies its support. Water is also an ingredient for poetic daydreams, we just need to let go and drift off.</p> <p>I decided to represent water as the key element involved in reflection. Just water. Water and light. Purity and plasticity. A mirror deforming reality. A creator of another reality, always in</p>		During the Forum	Parc Chanot
PL197	Photographic exhibition: "Time and Water"	Patrick DESGRAUPES, photograph of French National Parks	Patrick DESGRAUPES	Patrick Desgraupes present us a photographic exhibition on the theme of time and water.		During the Forum	Parc Chanot
PL198	Photographic exhibition: "Nature in its Intimacy... Intimate Nature of Us"	Muriel DESPIAU	Muriel DESPIAU	Photographic exhibition: "Nature in its Intimacy... Intimate Nature of Us"		During the Forum	Parc Chanot
PL199	Photographic Exhibitions: "Without Water"	Thierry STEFANOPOULOS	Thierry STEFANOPOULOS	These photographs from the Sahel region of Burkina Faso are a testimony to those who are in cruel needs of water.		During the Forum	Parc Chanot

PL200	Ceramics exhibition: "Au fil de l'eau"	Emmanuelle NOT	Emmanuelle NOT	Ceramics exhibition: "Au fil de l'eau"		During the Forum	Parc Chanot
PL201	Photographic exhibition: "Water for all, research is mobilized"	IRD, Saint-Charles Station	Marie-Lise SABRIE	<p>From space, Earth is a beautiful blue sphere: it is two-thirds covered with water. But only 0.1% of this resource is available to men and nearly one billion people worldwide lack access to safe drinking water, mostly in the South.</p> <p>Address these shortages, scientific research is essential to assess freshwater and develop strategies for better management of water for consumption, agriculture, industry ...</p> <p>With these photographs, discover the areas of research scientists. Worldwide, they are mobilizing for the preservation of and a more equitable sharing of water.</p>		February 20 to the end of March 2012	Saint-Charles Station
